

KS4 Options

Guidance for parents, carers and students

Compassion I Ambition I Resilience I Excellence

Guidance

The option choices your child makes will be important for their future. To help them make the right choices they will need to find out about the subjects they are interested in. They will need to get information from the following people:

- 1. Form tutor
- 2. Parents or carers
- 3. Subject teachers
- 4. Teachers from subjects that they have not studied, but are interested in.

To try and help your child make maximum progress and be successful in years 9, 10 and 11 the school provides a wide range of study options, some of which will provide more support for learning than others. It is important that your child chooses courses that will allow them to make the best progress, achieve the best exam results and enjoy the learning opportunities that will help them to be successful.

Your child's exam results at the end of Year 11 will be critical in determining what kind of course they progress onto in the sixth form at Stoke Newington School.

GCSE courses have a grading system of 1 to 9 with a grade 9 being equivalent to an old A**. We expect nearly all our students to gain a minimum of five 9-5 grades (old grades A*-C) by the end of Year 11 with the majority of students achieving many more than this. We expect more than 35% of students to achieve at least three 7, 8 or 9 grades and approximately 15% of students to achieve grades 7 to 9 for all their subjects. Level 2 courses are graded using pass, merit and distinction.

We recognise that every young person is different and that we have a small number of students who will need additional support to reach their target grades. For these students we provide a supported learning pathway and an additional mixed pathway, with structured support and appropriate courses to access Key Stage 4 programmes of study.

Raising participation age and sixth form study

Students are expected to remain in full time education, training or an approved programme of work and training, such as an apprenticeship, until they are at least 18 years old. It is important to think about progression into the sixth form, and indeed into higher education. It becomes even more important that students make the best choice of subjects for them in KS4 and that they are successful in achieving the minimum five 9 to 5 grades including maths and English by the end of Year 11. Students will have to work consistently across years 9, 10 and 11 to be properly prepared for their final exams at the end of Year 11.

The sixth form at Stoke Newington School has grown in numbers and students make excellent progress whilst studying here. The sixth form building provides excellent study and communal areas that make it an even more attractive place to study. As a successful sixth form we are increasingly popular with our own students but also with the external recruitment of students who studied GCSEs at other schools. We want to make sure that our own students have first choice to stay in our school's sixth form, but this does mean that they will need to meet the admissions criteria.

At Stoke Newington Sixth Form we aim to ensure that every student leaves us with the skills and motivation required to be successful in whatever they choose to do. Although we pride ourselves on our excellent outcomes, our unwavering support for every individual to progress and meet their full potential is at the core of everything we do. We aim to do this by empowering and enabling every individual to continue on to the best that higher education, training, or the world of work has to offer. This is achieved through:

- Excellent teaching and learning.
- A comprehensive pastoral support network.
- Outstanding progress made by all students who attend.
- Personalised support and guidance for the duration of their journey with us at Stoke Newington Sixth Form.

Thinking about A levels and BTECs

Many A level and BTECs depend upon you having studied particular subjects at GCSE. In the table below we have set out the 2025/26 entry requirements for our sixth form:

Art 4 in Art and 4 English Biology 6 in Biology and 6 in one of the other two Sciences (or at least a 6-6 in Combined Sciences), 5 in Maths and 5 English BTEC Diploma in Business 4 in Maths and 4 average in English is required. Chemistry 6 in Chemistry and a 6 in one of the other two Sciences (or at least a 6-6 in Computer Science), 6 in Maths and 4.5 English Computer Science 6 in Computer Science and 5 in Maths Drama & Theatre Studies 5 in Drama and 5 in English Literature and English Language English Literature A minimum of 5-6 in English Literature and English Language Film Studies 5 in English Literature BTEC Extended Certificate Level 3 Digital Film and Video Production French 5 (preferably 6) in French Geography 6 in Geography and 4.5 in English Graphic Communication 5 in Art, Photography, Graphics, Resistant Materials or Textiles History 6 in History Mathematics 7 in Maths (must be studied with A level Maths) Core Maths 5 in Maths Music 6 in Music and a highly competent performer on an instrument or singing Photography 5 in Art, Photography, Graphics or Textiles - 4 in English Music 6 in Music and a highly competent performer on an instrument or singing Photography 4 in Art, Photography, Graphics or Textiles - 4 in English Music 6 in Music and a highly competent performer on an instrument or singing Photography 4 in Art, Photography, Graphics or Textiles - 4 in English Fights and at least a 6 in one of the other two or 6-6 in Combined Sciences, 6 in Maths and 4.5 average in English Film English Language and a 5 in History, Geography or another humanities subject. Psychology 5 in Maths, Science and 5 in English Language Sciology 5 in Film English Language and preferably a 5 in a Humanities subject Film Extended Certificate in Sport 4 in PE or BTEC Sport level 2 pass, and 4 in English Film PE or L2 Merit in Sport, and 4 in English Film PE or BTEC Sport level 2 pass, and 4 in English Film PE or BTEC Sport level 2 pass, and 4 in English Film PE or BTEC Sport level 2 pass, and 5 in English Language. Fi	Subject	Minimum entry requirements		
BTEC Diploma in Business 4 in Maths and 4 average in English 1s required. Progression to university

Our sixth form students go on to study at a wide array of universities, including University of Oxford and University of Cambridge, as well as art schools like UAL, and other prestigious London universities like LSE. We have also had students go on to study abroad at institutions such as Harvard.

We pride ourselves on ensuring we offer a broad and balanced programme that enables students to make informed decisions on next steps, which has resulted in students not only progressing to university but also onto apprenticeships, and Art Foundation courses. The key is to keep your options open by getting the best GCSE grades possible. Then, at sixth form, choose A levels or BTECs that are applicable to anything you want to do in future and seek to enjoy your learning.

It is very important that you check that the A level choices you make facilitate you being able to do any degree you might want to do. For example, if you want to do medicine you need to study Chemistry. For more detailed information please look at the Russell Group's Informed Choices website: www.informedchoices.ac.uk

Science A levels can be studied with combined science GCSEs as long as at least 6-5 is attained. To find out more about university you can use these guides:

- www.thecompleteuniversityguide.co.uk
- www.theguardian.com/education/universityguide
- www.independent.co.uk/student/into-university/az-uni-colleges

Qualifications ladder

Levels	Academic general qualifications	Vocational qualifications - work ready qualifications	Work based/skills qualifications	
5	Honours degree			
4	Degree	Higher National Diploma Higher National Certificate Higher Level Apprenticeship	Foundation degree NVQ 4	
3	A level GCSE	BTEC nationals Award, cert & diplomas Short courses	NVQ 3	
		Advanced apprenticeship		
2	GCSE 9-4	BTEC firsts Diplomas & certificates Short courses	NVQ 2 Work skills	
	-	Apprenticeship		
1	GCSE 3-1	BTEC introductory Diplomas & certificates Short courses	NVQ 1 ESOL Work skills	

The options process

We offer a wide range of subjects at Key Stage 4 and students are asked to select four options. The subjects are arranged in blocks and students must select one from each block. They are also asked provide three back-up choices, in rank order of preference.

It is compulsory that one of the option choices be taken from the following list of subjects:

- Computer Science
- French
- Geography
- History
- Spanish

The blocks have been carefully constructed to give students as many subject and combination choices as our resources and staffing will allow. We are unable to move subjects into different blocks to accommodate a student's preferred subject combination.

Due to the nature of the courses being similar students may not choose these pairings of subjects:

- Design and Technology: Graphics and Design and Technology: Product Design
- Art and Design: Textiles <u>and</u> Art

We will do our utmost to fit all students into their preferred choices, but this cannot be guaranteed. That is why it is important that students provide three back-up choices, in rank order. Where we have been unable to allocate a first choice, we will work down the rank order list and allocate to the first available subject. The reasons a student may not get their first choice include:

- Insufficient numbers for the class to run too few students have opted for the subject. If the subject is being run in another block we will look to move block choices to accommodate. If it is not then we will use the back-up choices.
- Oversubscription too many students have opted for the subject. The number of spaces in
 each subject is decided using the maximum class sizes set by the headteacher and governors.
 Practical and computing subjects will have smaller class sizes than other subjects. When there
 are too many students opting for the number of spaces available, students with an EHCP are
 allocated first and then remaining students are randomly selected from all those who requested
 the subject. Where students are not selected, we will use their back-up choices. All students
 have an equal right to be selected and we do not use attainment or behaviour to decide. The
 random selection process is overseen by two senior members of staff to ensure fairness.
- Unforeseen staffing changes rarely, a staffing change may mean that a subject has to be withdrawn from the option blocks. If this happens we will use back-up choices.
- Late return of online options form if we do not receive an options form by the deadline published, a first choice cannot be considered if it is for an oversubscribed subject. Back-up choices will be used.

It is highly unlikely that option subjects will be changed after the process has been completed. However, once the GCSE programme of study has begun at the beginning of Year 9, there is a short window of 4 weeks where changes might be made, providing there is a reason, beyond having made the wrong choice and providing that there is space in the preferred subject. We will do our best to accommodate requests, but cannot guarantee that a change will be made because most subjects will be full. We do not go over the maximum class sizes set by the headteacher and governors under any circumstances.

Important dates for the options process
